

<Marine Organism Rearing Log>

9 AM, February 2, 2023

Weather: Sunny

Water temperature: 17.6°C

Media such as from newspapers or TV stations visit the marine organism rearing test facility for coverage or inspection for straight days. We, all caretakers, eagerly demonstrate the way how the facility works, the life of the flounders and the abalones in the tanks, or the process of rearing test for widespread publicity.
