## Sampling Results Regarding the Influence on the Water Leak at a Tank in the H6 Area in Fukushima Daiichi Nuclear Power Station (Around the H6 Area) Tokyo Electric Power Company

|                        |                            |              | Unit: Bq/L   |
|------------------------|----------------------------|--------------|--------------|
|                        | Groundwater around H6 area |              |              |
|                        | G-1                        | G-2          | G-3          |
| Date of Sampling       |                            | Jun 26, 2014 | Jun 26, 2014 |
| Time of sampling       |                            | 9:05 AM      | 9:00 AM      |
| Gross β                |                            | 31           | ND(17)       |
| H-3 (Approx. 12 years) |                            | 120          | 740          |

\* "ND" indicates that the measurement result is below the detection limit, and the detection limit of each nuclide is provided in parentheses.
