## Progress Status of Covering the Marine Soil of the Port of Fukushima Daiichi Nuclear Power Station

< Reference > May 16, 2012
Tokyo Electric Power Company

## [Unit 1-4]

March 14: Started working on the first covering layer

March 29: The first covering layer completed

April 5: Started working on the second

covering layer

May 11: The second covering layer

completed

## [Unit 5-6]

May 16: Silt fence installation

May 17: Will start working on the first

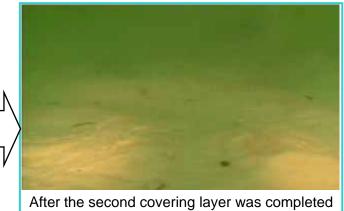

covering layer

End of June: The first covering layer will be

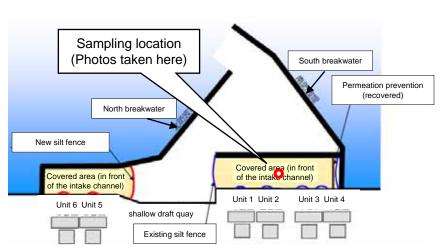

completed

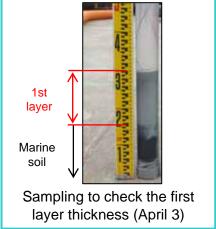

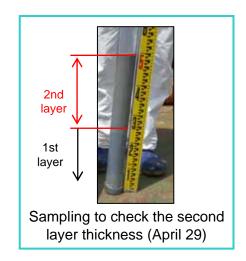

Before the marine soil was covered (Photo taken on February 26)

(Photo taken on April 29)

We have confirmed that the first layer is fully covering the seafloor surface.

We have also confirmed that the second layer is fully covering the first layer, and the specified thickness is maintained.
