

(Corrected item)

2. Administration of radioactive solid waste such as contaminated rubbles

Table 2-1: Radioactive Solid Waste Storage Volume before the accident

(Content of the correction)

Correct the volume of stored synthetic resins etc at tanks etc from “3,497 m³” to “3,507 m³” in

“Table 2-1: Radioactive Solid Waste Storage Volume before the accident, 2. Administration of radioactive solid waste such as contaminated rubbles”.

The corrected part is per the underlined in below tables.

Before correction			
Table 2-1: Radioactive Solid Waste Storage Volume before the accident			
Location of storage	Type of waste	Volume of storage	Note
Solid waste storage house	Drums	175,806	At the end of January 2011
	Other wastes etc (Equivalent to drums)	10,155 <small>(We are storing 7,436 drums equivalent of other wastes etc at a temporary storage facility at the end of Oct 2011)</small>	
Site bunker Spent fuel pool	Control rods	1,378	At the end of December 2010
	Channel boxes etc	21,503	
	Others	186 m ³	
Tanks etc	Synthetic resins etc	<u>3,497</u> m ³	At the end of January 2011
After correction
