Exposure Dose Distribution

1. Exposure dose

The distribution of external exposure dose of the workers who engaged in the emergency works during the past 3 months (numbers of workers who entered each area every month) is shown in Table 1.

We use integrated value of APD data that measured every time when enter into the area. These data sometimes fluctuate due to replacing these data to monthly dose data measured by integral dosimeter

2. Total of external exposure and internal exposure doses combined

The accumulative exposure dose at the end of February (March 11, 2011 to February 29, 2012) and at the end of March (Mach 11, 2011 to March 31, 2012) of the workers who engaged in the emergency works is shown in Table 2.

3. Total of external exposure and internal exposure doses of specific workers under high radiation dose combined

Distribution of the accumulative exposure dose of the Specific workers under high radiation dose*1 is shown in Table 3.

⁽⁸³ workers in March did not have the entrance record)

The workers who applied Emergency dose limit (100mSv) shown in "Ordinance on Prevention of Ionizing Radiation Hazards, chapter 7."

Specifically, it means the workers who engaged in the work to maintain the function that cooling reactor facility or spent fuel tank at the area where the radiation dose exceed 0.1 mSv /h and reactor facility, steam turbine and related facilities and surrounding area in the power plant or the work to maintain the function to control or prevent release of huge amount radioactive material due to trouble or break of reactor facility.

Until now, all Specific workers under high radiation dose are TEPCO Employees.

4. Total of external exposure and internal exposure doses of workers who applied provisional measures combined

Distribution of the accumulative exposure dose of workers who applied provisional measure *2 after the Specific workers under high radiation dose abolished is shown in Table 4.

⁽²³ workers in March did not have the entrance record.)

The workers who are applied dose limit (250mSv) based on ministerial ordinance relating to special provision of "Ordinance on Prevention of Ionizing Radiation Hazards, chapter 7" until April 30, 2012 even after repealing of the ministerial ordinance on December 16, 2011. As of the end of January, all workers who applied provisional measure are TEPCO employees.
